

ROOMI-ACE

PROJECT 3 - STRATEGY & STRUCTURE

Design objective

**CREATE AN INTERFACE THAT
EASES ANY SITUATION
AMONG ROOMMATES.**

AUDIENCE

- Anyone who is in a shared living situation
 - Typically for people with busy schedules
 - For people who want an organized system
 - For people who want effective distribution of shared responsibilities

FUNCTION SPECIFICATIONS

- Notification pop ups
- Ability to upload photos and documents
- Connection to Venmo account
- Ability to customize tabs
- User can check items off

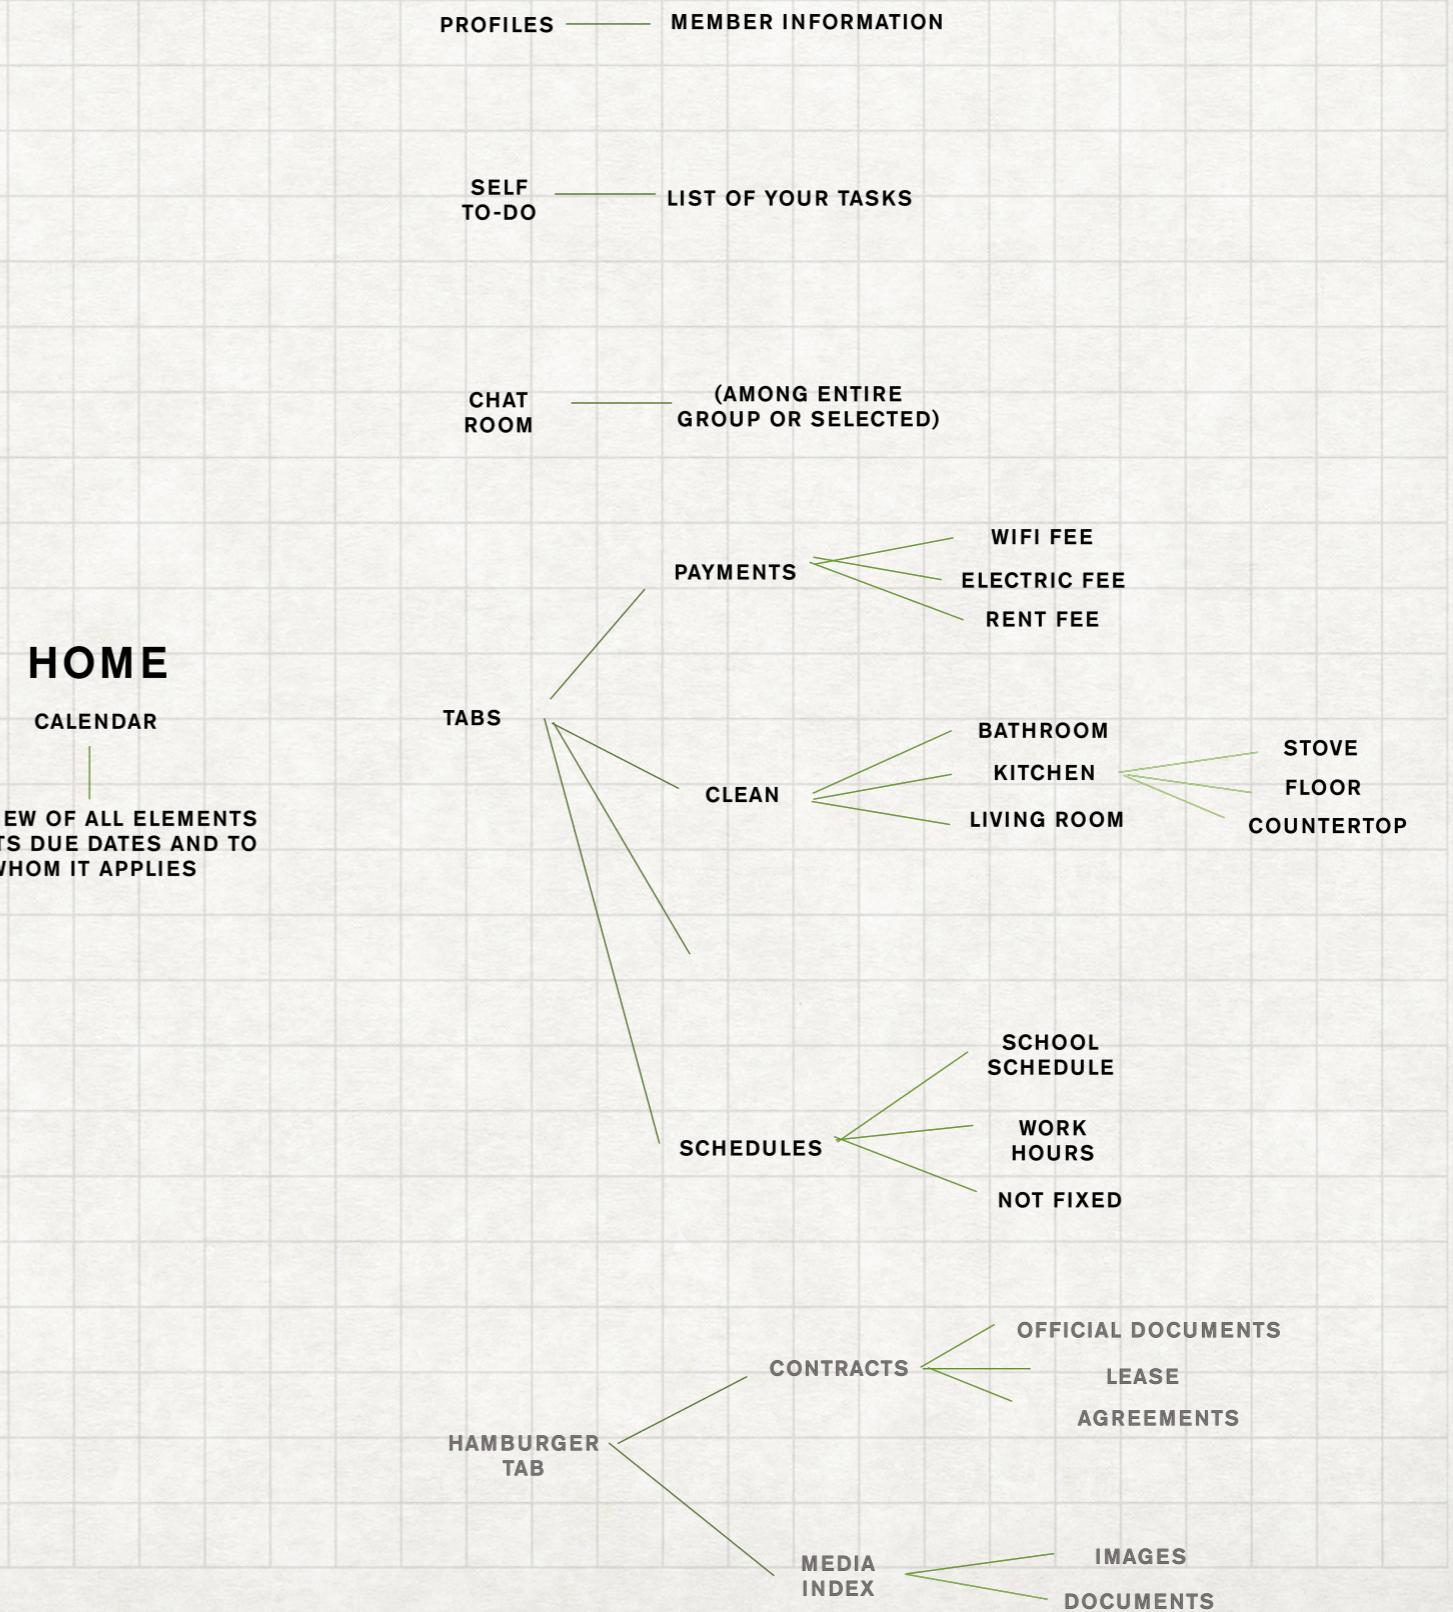

CONTENT REQUIREMENTS

- Calendar (real time)
- Images + Documents
- Lists
- All elements are date sensitive
- Suggestions/examples for input when customizing or inputting text (i.e. "i.e. Take out Trash")
- Chat room

INFORMATION ARCHITECTURE

Hierarchical Structure

- At start, users' names will be inputted.
- Color assigned for simplified identification
- Every element (except calendar unless day-view) will be presented in a block list style.
- Finished and unfinished items are colored differently.

THANK YOU
